

Michael Lindsey- 5/5

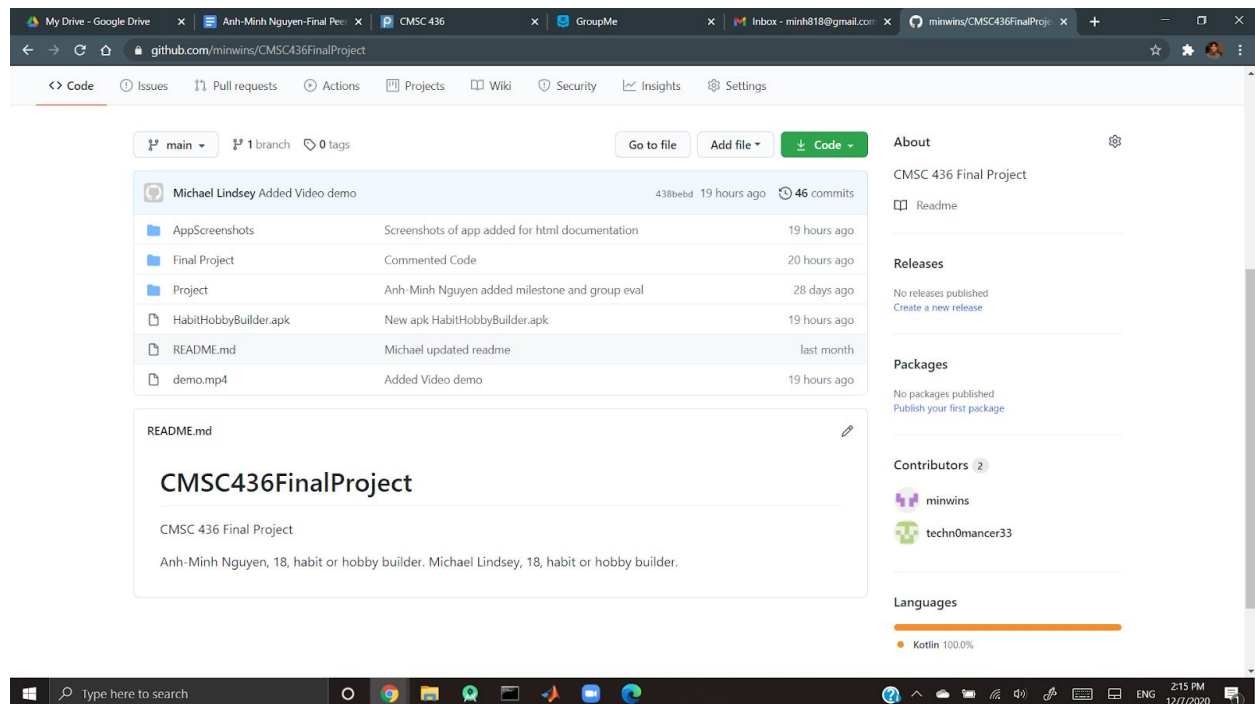

Dagmawi Assefa- 2/5

Michael Lindsey did his part of the work very well and was sort of the leader of the group. No complaints with him

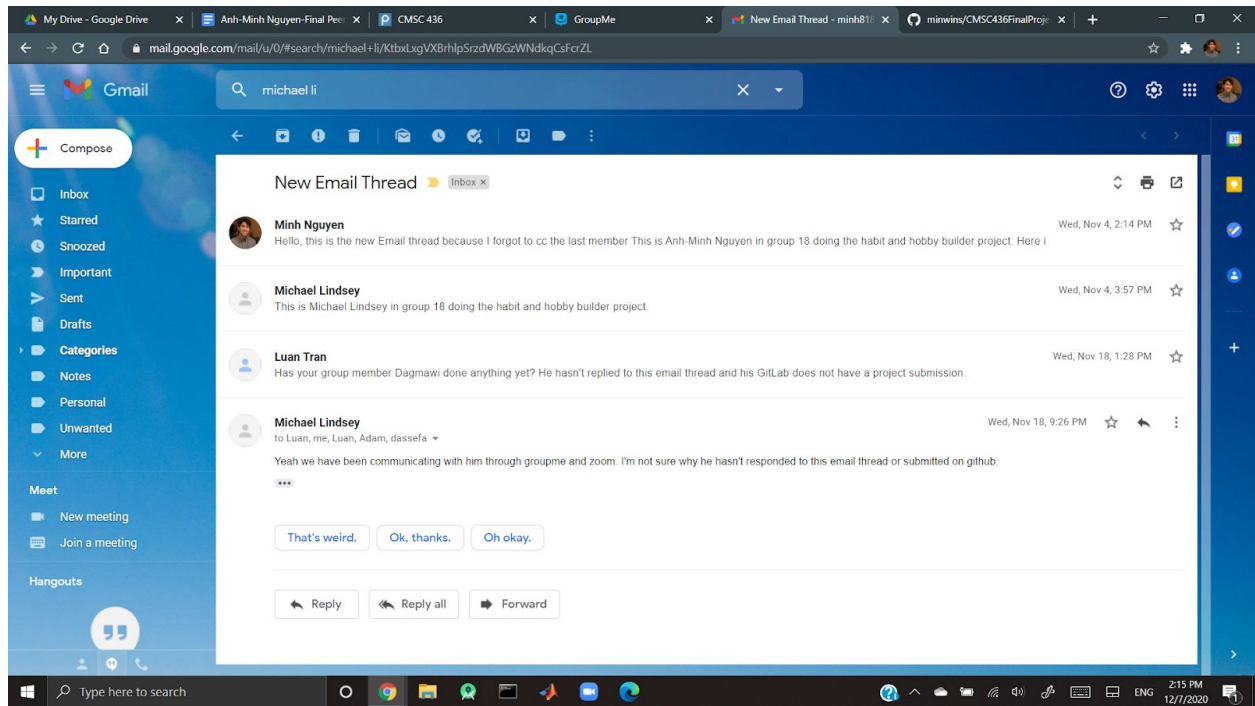

Dagmawi Assefa was very concerning in our group. He did not reply to the email chain nor did he clone the repository, but he did fork our repository. I did not understand why he did not reply to the email nor clone it, he wasn't also able to update the readme. Coding wise, I purposely did his part of the project. I did this because I did not have trust that he would do it correctly and the fact that in order for the project to work, we had to be in-sync in how we program and I thought that it would be easier if I just did the coding myself.

Dagmawi did do the HTML which was helpful in the end.

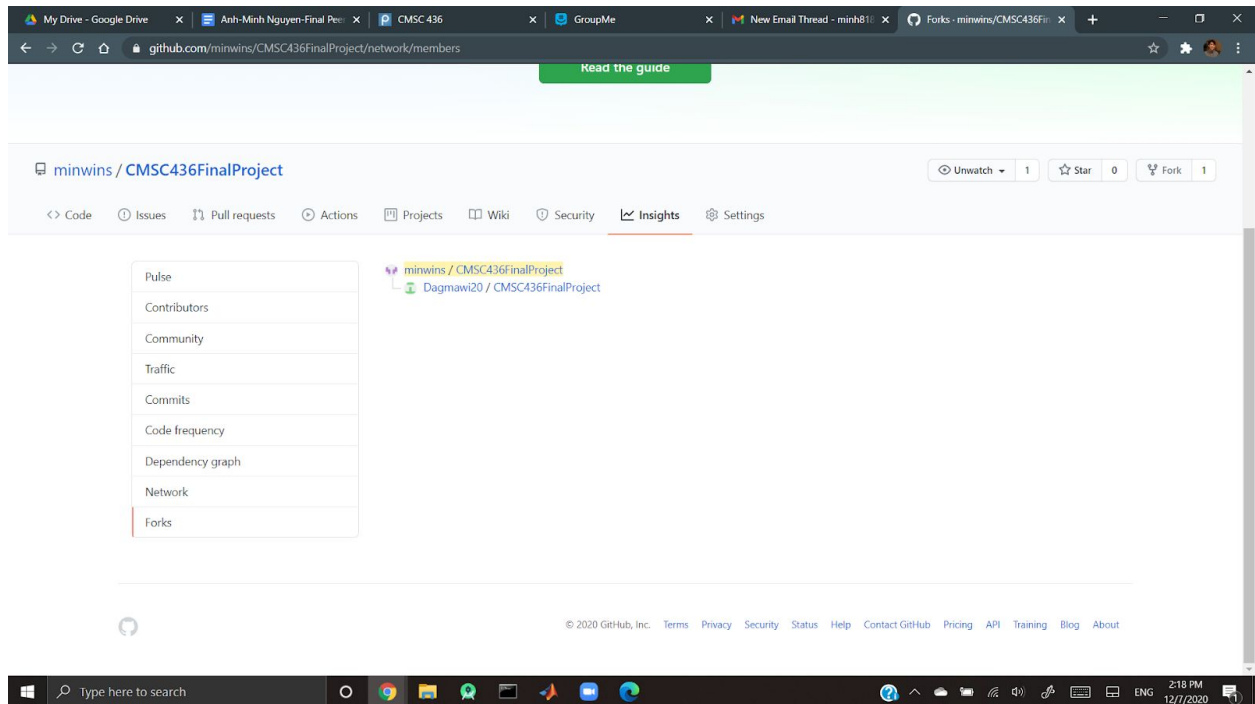

I sent an Email to Luan about Dagmawi, but this was before he did the HTML, so in the end , Dagmawi did do some work.

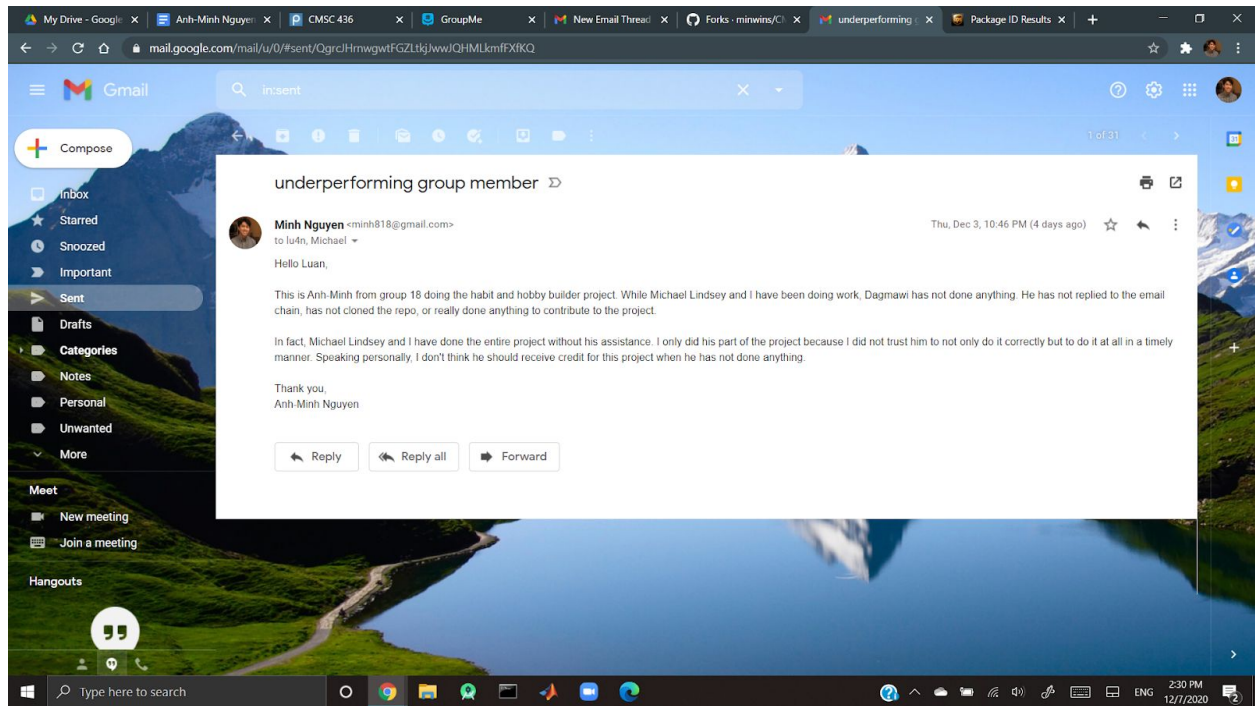

Dagmawi is not a contributor, nor did he update the ReadMe

Dagmawi did not reply to the email chain

Dagmawi did fork the repository., however I do not understand why he didn't clone it

Email regarding Dagmawi's performance.
